

VISION15 PRO

Reliability and performance, to meet the most demanding requirements of the retail market

VISION15 PRO represents the highest level of innovation, reliability and performance, to meet the most demanding requirements of the retail market. Designed with the greatest care for details, to provide the point of sale with the best combination of technology and design, VISION15 PRO is the ideal solution for all retailers using the most advanced management software applications. The care for aesthetic details, such as the flat touch screen monitor (TRUE FLAT) and the modern lines and shapes that characterize this product perfectly marry with its robustness and reliability, assured by a full aluminium structure and by the most performing industrial processors available on the market today. Its operating efficiency is furthermore assured by the SSD (Solid State Drive) technology of the hard disk, which combines high performance with low power consumption. The resistive Touch screen monitor can betilted up to 90° so that it can be adjusted in the best way based on the height and illumination of the cash point.
