

# DAYTONA

## Stable, reliable POS terminal that’s made to last

**Great reliability** and an industrial project: **DAYTONA** is ideal for point-of-sale applications that require larger workload in multiple environments. The terminal is developed to support **any kind of software application** thanks to different CPU performance levels. DAYTONA establishes a new standard for touchscreen terminals, with **top-notch RAM and SSD**. Thanks to the easy-access SSD with **detached slot**, it won't be hard to open the device in case of assistance. This terminal is developed to be flexible, and can easily updated to become your company's most loyal helper.

## CHARACTERISTICS

### 1. Field upgradeable
Quickly upgradeable RAM and SSD to increase system specifications

### 2. Optional Wi-Fi® antenna
No need for cabling - easily upgrade to high speed wireless access

### 3. USB-C on all 4 sides of the terminal for proprietary peripherals
Consolidate peripheral integrations for attended and unattended applications

### 4. Multiple CPU options
Celeron® and i3 configurations: keep consistent look and feel across your business environment

### 5. Multiple operating systems
Compatible in both Windows 10 IoT, Windows 11 (only i3 model), and Linux

### 6. Cable management
Easily hide cables in the base for a clean installation
