TREK Monitor by Custom Group: your journey to true functionality starts now!

TREK Monitor adds touch functionality to any application: **POS, Self-Service, KDS, Price Checker**, and more.

Key Points

Simplicity

TREK Monitor simplifies connectivity via a single USB-C cable which provides touch, video signal and power. Alternatively, HDMI, USB-A and power connectors are also available to support legacy connections to POS systems, PCs and compute boxes.

Versatility

TREK Monitor supports all TREK micro USB accessories allowing for endless configurations to support a variety of use cases.

Flexibility

Whether placed on the counter via the included stand or mounted onto any 75 x 75 mm VESA pole or bracket, the TREK monitor can be positioned wherever needed to best serve the customer.

Durability

Retail-hardened and backed by Custom's warranty support, TREK Monitor is built to withstand the rigors of any environment.
